INDEX TO VOLUME 49

An asterisk (*) denotes the abstract of a paper before the Academy or an affiliated society

PROCEEDINGS OF THE ACADEMY AND AFFILIATED SOCIETIES

Geological Society of Washington. 90.

Washington Academy of Sciences. 37.

AUTHOR INDEX

ABBOTT, IRA H. Extramural science and research activities of the National Aeronautics and Space Administration. 87.

ANDREASEN, G. E. See ZIETZ, ISIDORE. 90.

BACK, WILLIAM. Emergence of geology as a public function, 1800–1879. 205.

BAYER, FREDERICK M. A review of the gorgonacean genus *Placogorgia* Studer, with a description of *Placogorgia tribuloides*, a new species from the Straits of Florida. 54.

BJORNSSON, IDA P. Responses of certain fungi, particularly *Trichoderma* sp., to light. 317.

BLAKE, DORIS H. Seven new galerucid beetles from the West Indies. 178.

BRODE, ROBERT B. Extramural science programs of the National Science Foundation. 66.

BUELL, CRAWFORD R. Pay plans and people. 1.

CAMPBELL, FRANK L. Science and education in the Washington area. 97.

CRABILL, R. E., JR. A new Floridan *Pectiniunguis*, with reappraisal of its type species and comments on the status of *Adenoschendyla* and *Litoschendyla* (Chilopoda: Geophilomorpha: Schendylidae). 324.

———. Notes on *Mecistocephalus* in the Americas, with a redescription of *Mecistocephalus guildingii* Newport (Chilopoda: Geophilomorpha: Mecistocephalidae). 188.

CUATRECASAS, JOSÉ. New chiropterophilous Solanaceae from Colombia. 269.

DANE, CARLE H. *The New Mexico geologic map—a summary of 30 years of geologic progress. 95.

DAVIS, NORMAN T. See DRAKE, CARL J. 19.

DERMEN, HAIG. Adventitious bud and stem relationship in apple. 261.

DESBOROUGH, GEORGE A. Sulphide mineralization and associated structure in northern Union County, Illinois. 172.
See also NICOL, DAVID. 351.

DRAKE, CARL J., and DAVIS, NORMAN T. A new subfamily, genus, and species of Lygaeidae (Hemiptera—Heteroptera) from Australia. 19.

DRESCHLER, CHARLES. Two new species of *Harposporium* parasitic on nematodes. 106.

DRYDEN, HUGH L. The exploration of space. 165.

DUNHAM, CHARLES L. Extramural science programs of the Atomic Energy Commission. 84.

DUPREE, A. HUNTER. Asa Gray and American geology. 227.

FRIEDMAN, IRVING. *Deuterium and the age of Arctic sea ice. 94.

FRIEDMAN, JULES. Development of geologic thought concerning Ulster County, New York. 252.

GOODING, R. U. Taxonomy of the copepod genera *Pherma* and *Pestifer*. 122.

GRANTZ, ARTHUR. See ZIETZ, ISIDORE. 90.

GRICE, GEORGE D. A new species of *Haloptilus* (Copepoda: Calonoida) from equatorial and subtropical waters of the east-central Pacific Ocean. 193.

GURNEY, ASHLEY B. A new grasshopper of the genus *Achurum* from eastern Texas (Orthoptera: Acrididae). 117.

HACK, J. T. *The relation of manganese to surficial deposits in the Shenandoah Valley, Virginia. 93.

HANSON, HERBERT C. See VAN DENACK, Sister JULIA MARIE. 367.

HEWETT, D. F. *Deposits of the manganese oxides. 95.

HOFFMAN, RICHARD L. *Antrogonodesmus*, a new chelodesmoid genus from Cuba, and a redescription of *Amphelictogon dolius* Chamberlin (Polydesmida, Chelodesmidae). 284.

HOWELL, J. V. Geology plus adventure: The story of the Hayden Survey. 220.

INGRAM, S. B. Education for the Age of Technology. 293.

IWAI, TAMOTSU. See MATSUBARA, KIYOMATSU. 27.

KELLEY, VINCENT C. *Structure and fracture systems of the Colorado Plateau. 94.

LANDEN, DAVID. Impact of the development of photogrammetry upon geology. 234.

———. *New developments in photogrammetric measurements for geologists. 93.

LOOMIS, H. F. Millipeds collected enroute from Florida to San Antonio, Texas, and vicinity. 157.

LUKES, GEORGE D. Extramural science programs of the Department of Defense. 70.

MARTON, L. Men and electrons. 98.

MATSUBARA, KIYOMATSU, and IWAI, TAMOTSU. Description of a new sandfish, *Kraemeria sexradiata*, from Japan, with special reference to its osteology. 27.

MAYER-OAKES, WILLIAM J. Relationship between Plains Early Hunter and Eastern Archaic. 146.

MCPHERSON, A. T. Introductory remarks to symposium on "Extramural Science Programs of the Federal Government." 65.

MEAD, GILES W. *Bathypterois pectinatus*, a new bathyal iniomous fish from the eastern Pacific. 290.

MIESCH, A. T. See NEWMAN, W. L. 90.

NEWMAN, W. L.; MIESCH, A. T.; and SHOEMAKER, E. M. *Chemical composition as a guide to the size of sandstone-type uranium deposits, Colorado Plateau. 90.

NICOL, DAVID; DESBOROUGH, GEORGE A.; and SOLLIDAY, JAMES R. Paleontologic record of the primary differentiation in some major invertebrate groups. 351.

NOLAN, THOMAS B. The United States Geological Survey and the advancement of geology in the public service. 209.

OEHSER, PAUL H. The role of the Smithsonian Institution in early American geology. 215.

OWEN, EDGAR W. Remarks on the history of American petroleum geology. 256.

PANGBORN, MARK W., JR. A history of the popularization of geology in America: A bibliographical survey. 224.

PAYNE-GAPOSCHKIN, C. Cepheid variables and the period-luminosity relation. 333.

RAUP, DAVID M. *The effect of environment on echinoid morphology. 91.

REED, JOHN C., JR. *Crystalline rocks of the Potomac River Gorge near Washington, D. C. 92.

ROSS, CHARLES A. The Wolfcamp Series (Permian) and new species of fusulinids, Glass Mountains, Texas. 299.

RUDD, VELVA E. Supplementary studies in *Aeschynomene*, I: Series Viscidulae, including a new species and five new varieties. 45.

SEEGER, RAYMOND J. Franklin as a physicist. 129.

———. Moon bound. 42.

SETTY, L. R. Muscles of the hip and thigh of the emperor penguin. 183.

SHAW, BYRON T. Extramural science programs of the United States Department of Agriculture. 81.

SHOEMAKER, CLARENCE R. Three new cave amphipods from the West Indies. 273.

SHOEMAKER, E. M. See NEWMAN, W. L. 90.

SOLLIDAY, JAMES R. See NICOL, DAVID. 351.

VAN DENACK, Sister JULIA MARIE, and HANSON, HERBERT C. The Danthonia-Lichen-Moss community in Washington, D. C., and vicinity. 367.

VAN SLYKE, C. J. Extramural science programs of the National Institutes of Health. 75.

WELLS, JOHN W. Notes on the earliest geological maps of the United States, 1756–1832. 198.

WILSON, JOHN A. Darwinian natural selection and vertebrate paleontology. 231.

ZIETZ, ISIDORE; ANDREASEN, G. E.; and GRANTZ, ARTHUR. *An aeromagnetic study of the Cook Inlet area, Alaska. 90.

Archeology. Relationship between Plains Early Hunter and Eastern Archaic. WILLIAM J. MAYER-OAKES. 146.

Astronautics. The exploration of space. HUGH L. DRYDEN. 165.

Astronomy. Cepheid variables and the period-luminosity relation. C. PAYNE-GAPOSCHKIN. 333.

Botany. Adventitious bud and stem relationship in apple. HAIG DERMEN. 261.

New chiropterophilous Solanaceae from Colombia. JOSÉ CUATRECASAS. 269.

Supplementary studies in *Aeschynomene*, I: Series Viscidulae, including a new species and five new varieties. VELVA E. RUDD. 45.

The Danthonia-Lichen-Moss community in Washington, D. C., and vicinity. Sister JULIA MARIE VAN DENACK and HERBERT C. HANSON. 367.

Education. Education for the Age of Technology. S. B. INGRAM. 293.

Science and education in the Washington area. FRANK L. CAMPBELL. 97.

Entomology. A new grasshopper of the genus *Achurum* from eastern Texas (Orthoptera: Acrididae). ASHLEY B. GURNEY. 117.

A new subfamily, genus, and species of Lygaeidae (Hemiptera-Heteroptera) from Australia. CARL J. DRAKE and NORMAN T. DAVIS. 19.

Seven new galerucid beetles from the West Indies. DORIS H. BLAKE. 178.

General science. Extramural science and research activities of the National Aeronautics and Space Administration. IRA H. ABBOTT. 87.

Extramural science programs of the Atomic Energy Commission. CHARLES L. DUNHAM. 84.

Extramural science programs of the Department of Defense. GEORGE D. LUKES. 70.

Extramural science programs of the National Institutes of Health. C. J. VAN SLYKE. 75.

Extramural science programs of the National Science Foundation. ROBERT B. BRODE. 66.

Extramural science programs of the United States Department of Agriculture. BYRON T. SHAW. 81.

Introductory remarks [to symposium on "Extramural Science Programs of the Federal Government"]. A. T. MCPHERSON. 65.

Moon bound. RAYMOND J. SEEGER. 42.

Geology. *An aeromagnetic study of the Cook Inlet area, Alaska. ISIDORE ZIETZ, G. E. ANDREASEN, and ARTHUR GRANTZ. 90.

*Chemical composition as a guide to the size of sandstone-type uranium deposits, Colorado Plateau. W. L. NEWMAN, A. T. MIESCH, and E. M. SHOEMAKER. 90.

*Crystalline rocks of the Potomac River Gorge near Washington, D. C. JOHN C. REED, JR. 92.

*Deposits of the manganese oxides. D. F. HEWETT. 95.

*Deuterium and the age of Arctic sea ice. IRVING FRIEDMAN. 94.

*New developments in photogrammetric measurements for geologists. DAVID LANDEN. 93.

*Structure and fracture systems of the Colorado Plateau. VINCENT C. KELLEY. 94.

Sulphide mineralization and associated structure in northern Union County, Illinois. GEORGE A. DESBOROUGH. 172.

Symposium on the history of American geology. VARIOUS AUTHORS. 197.

*The New Mexico geologic map—a summary of 30 years of geologic progress. CARLE H. DANE. 95.

*The relation of manganese to surficial deposits in the Shenandoah Valley, Virginia. J. T. HACK. 93.

The Wolfcamp Series (Permian) and new species of fusulinids, Glass Mountains, Texas. CHARLES A. ROSS. 299.
